The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 32 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 32 is an apparatus claim that depends on an independent method claim

17. This claim should be cancelled or amended with the correct dependency.

Allowable Subject Matter

3. Claims 1-31, 33 are allowed:

The following is a statement of reasons for the indication of allowable subject matter:

Prior art fails to teach the method of apparatus for controlling data transferring via an input port of a switch in three or more frame buffers as recited in the independent claims.

4. Claim 32 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
